Engineering Heritage Committee Sydney

**Engineers Australia
Sydney Division.**

Activities

of the Engineering Heritage Committee Sydney

- Promotes the conservation of historic engineering works, documents and artefacts.
- Provides advice on engineering heritage & industrial archaeology matters.
- Assists organisations in identifying significant engineering heritage works and artefacts.
- Provides information on historic industrial and engineering places and works.
- Assists in archiving engineering documents.
- Promotes recognition of historic engineering works by awarding heritage plaques.
- Provides guided tours, books and pamphlets of Sydney's engineering heritage sites.
- Undertakes oral history interviews of engineers & industrial related people.
- Inputs into policies & procedures of Government & its authorities.
- Conducts public talks about heritage works and issues.

Engineering Heritage Committee

Eveleigh Railway Workshops

The Committee is a non profit volunteer sub-committee of Sydney Division of Engineers Australia.

The Committee is primarily concerned with the conservation of the history & heritage of industrial & engineering works.

The Committee liaises with the Heritage Council, Heritage Office, National Trust & Government Authorities, as well as other organisations that are custodians of heritage assets. Its members serve on the heritage committees of Government & other organisations.

Through its members, the committee advises on heritage aspects of buildings, structures, bridges, roads, factories, machinery,
